IN THE AUCTION ROOM.

BIG POSTAL CHANGES URGED FOR N. Y. CITY

Recommendations of Joint Commission Submitted to House and Senate.

NEW BUILDINGS NEEDED

Restoration of Tube Service and New City Hall Station Also Asked in Report.

Special Despatch to THE NEW YORK HELLD New York Herald Bureau,) Washington, D. C., July 29, (Far reaching improvements in posts

facilities for the city of New York. nded by the Joint Postal Comission, were made public to-day in Congress, Chairman Townsend of the enate presenting the recommendations nate, and Representative Steenerson (Minn.) making them public in

As previously published in THE NEW YORK HERALD, the commission strongly ends restoration of the pneunatic tube service, the ultimate construction of a new building at the City struction of a new building at the City Hall station, provision for two additional buildings near the General Post Office Building, one known as the Pennsylvania Railroad site between Thirty-first and Thirty-third streets, west of Eighth avenue and east of Ninth avenue, and the leasing of a site from the Grand Central on Thirtieth street between Ninth and Tenth avenues. Speaking of these proposals, the report says:
"It should be said that land values in New York are aururally high, but the receipts of the New York office last year were \$53,301,498; and they are increasing at the rate of approximately 10 per cent. per annum, so that at the end of the ten year period for which provision is being made they will approximate \$138,000,000 annually.

"The acquisition of this site will give opportunity to segregate a very large volume of outgoing parcel post matter, the desirability of affecting which segregation in certain cases has been urged before and will serve a very useful purpose in affording the business section a station for the deposit of bulk mail. The plan outlined includes the abandonment of the present foreign station, now occupying an entirely separate building, but with very inadequate space and facilities; the removal from the Grand Central Station of many of the activities there conducted, and the reallocation of space of all branches of the post office and railway mall service now located in the General Post Office.

City Hall Station Crowded. Hall station, provision for two addi-

"Investigation made by the commission has shown the urgent need of relieving the situation at the City Hall station, for many years known as the General Post Office, and which is located in the midst of New York's greatest office buildings. The receipts of this station are as great as the receipts of the entire city of St. Louis, which from the standpoint of postal revenues ranks fifth among the cities of the United States."

Referring to the exhaustive investigation made by the commission of the New York situation, the report states that special attention has been given to the following:

The seapost, the harbor boat service, space requirements, the separation of parcel post from letter mail, breakage and depreciation, the efficient and economical handling of the parcel post, the motor vehicle service, transmittal of mail by pneumatic tubes and centralization and decentralization.

The seapost, the report states, may be resumed by the Post Office Department. Before the war it was operated between this country and Great Britain, Germany, France, the Canal Zone and Porto Rico. Legislation is not necessary for its resumption, it is stated.

It is said harbor boat service has been resumed and hence no recommendation is made.

Discussing the parcel post situation

office. The proposed new buildings, it is considered, will take care of these needs, the report asserting that "once these facilities are made available the problem involved in the segregation of the parcel post can be solved by administrative action, resulting in improved service and more economical operation without the necessity of legislation looking to separation of parcel post from letter mails."

The situation regarding the motor vehicle service is reviewed, but without recommendation, the report saying that these are "exclusively administrative problems requiring no legislative action." The testimony on this question has been referred to the Post Office Department for action.

The question of centralization and de-

The commission declines to make any recommendation on the proposed tunnel from the Grand Central Station to the Greneral Postoffice. "Thus far," the report says, "no franchise has been selected. No legislative action is called for. No recommendation can me made at this time."

The report discloses that certain recommendations have been made by engineers employed by the commission which have not yet been put in effect. These are:

"The investment of the 5 per cent. octal savings reserve will earn about 1400,000 a year.

which have not yet been put in effect. These are:

"The investment of the 5 per cent. postal savings reserve will earn about \$400,000 a year.

"The elimination of the Federal building clause, the ninety day cancellation clause and the furniture requirements from post office leases will save at least \$1,000,000 a year, and probably over \$2,000,000. The department is paying from \$1.50 to \$2 a square foot a year for property with a sale value of only \$5 to \$5 a square foot."

SERVICE BOARD HALTS ROCHESTER PHONE RISE

Orders \$4 Rate for Eighty Locals Pending a Hearing.

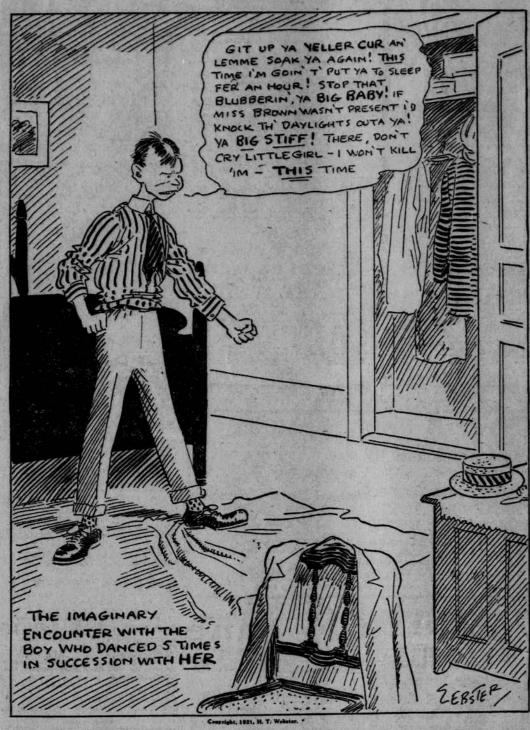

ALBANY, July 29.—Proposed rates of the Rochester Telephone Corporation, to be effective August 1, were ordered suspended by the Public Service Commission to-day. The company also was ordered to file a temporary schedule reducing a certain class of rates from those proposed. The suspension will be effective pending the hearing and determination of the complaint of Mayor Edgerton of Rochester.

Rochester.

The temporary schedule was ordered to provide a rate of \$4 for eighty local messages or less a month on an individual line, business and residence, with a further reduction for all messages above that amount.

The order held that it appeared to the satisfaction of the commission that public interest required a change in the schedule of rates as proposed by the telephone company.

lease was made by the F. R. Tripler Company, which holds a sublease of the property from Alfred A. Hagedorn made by the owner of the building, the Johnson estate.

The lease to the Gusfie's, Inc., is for a term of about twenty-one years from July 1, and is made at a net rental of \$35,000. A year ago the Tripler concern leased the building to Hagedorn & Co., who subsequently turned over the lease at a profit to Mme. Theresa Serposs, milliner. Mme. Serpose took another profit, which would have amounted to \$3,000 per annum, in leasing the property to Mrs. Ella M. O'Kane, interior decorator. These two latter leases have been cancelled and a new lease made by Tripler aubequently resold. He bought the
